In order to comply with the law, President Cleveland appointed a committee to investigate the cause of the great strike in Chicago. The committee will enter upon its duties forthwith. After the great strike on the Gould system in the southwest, a joint committee was appointed from both houses of congress, and they took a trip to St. Louis, Sedalia and Kansas City, and then made their report, which revealed the astounding facts that Mr. Gould was operating his business as he deemed proper. 7000 men had recently been thrown out of work as the result of joining a union, and new men had been selected to fill their places. The expense of the committee was the trifling sum of \$20,000. Now this will be just about what the report of the present committee will be. Congress and the general assemblies should let the labor question entirely alone. Employers will offer to pay what they think they can afford and if men cannot afford to do the work for what is offered, then the employer will have to raise his bid or the work will go undone. We know of no other way to solve the problem. It is simply a contract between individuals, hence it is a matter that no way concerns anyone but the parties interested. The trouble has been within the last decade the employees have attempted to dictate what they should have, and if they did not get it then there was war on hand. They would not work themselves nor permit others to fill their places, and we are sorry that some of our leading editors for a time upheld such outlawism, but the tide is now turning. Political tricksters can have no show to arouse sympathy for the labor element to procure votes to help him into office. Let us all be free men, act individually and there will be no use for labor day, committees of investigation, strikes or property destroyed, but there will be harmony and good will where now nothing but hatred exists.

The bill to elect senators by a direct vote of the people passed the house by nearly two-thirds majority. The object of the bill is to avoid sending so many wealthy men to the senate. We are unable to see what benefit is to be derived by permitting the people to choose the senators, as the body is no more likely to be purified than under the present plan. The political bosses in both parties would select their man and the party that carried the day would have their man elected just the same as at present. Therefore there can be nothing gained in that way. Then again, we are inclined to think that better talent reaches the senate, as the members of the assemblies are usually in a better position to judge of the fitness of men for the position than the people at large.

Debs, the labor idiot, called a few of his apostles together in Chicago last week to discuss the situation. They found that the people had already put the motion before the house and carried it, for the labor unions to remain quiet, and all that remained for Debs and his directors was to employ counsel to try to keep them out of the penitentiary.

China and Japan are now engaged in a war simply over nothing. Some friendly nations should look after the matter and see if their little differences cannot be adjusted. The time for blood to be shed in that way should be a thing of the past in this civilized world.

The tax-payers in Cook county, Ill., will now see the benefit of a strike in a financial way, for the next ten years, at least. The city of Pittsburgh just redeemed their last bond in May, 1894, in payment of damage done by the strikers there in 1877.

President Cleveland still declines to give the committee from the Hiawatha islands an audience. The gentlemen are in the interest of Queen Lil. and want this government to assist in restoring to her what they unlawfully deposed her of.

The examination of Judge Ricks' accounts while he was clerk of the court has been postponed until he returns from the east.

The executive department is pitted against the legislative department now, at Washington, D. C. The president is ahead at the last inning as we go to press.

The labor unions have decided not to march on labor day this year. A very sensible conclusion, indeed.

WASHINGTON LETTER.

WASHINGTON, August 3.—Republicans are in the dark as to what democratic conferees are doing toward reaching an agreement on the tariff bill, as the meetings that are being held are informal and are only attended by the democrats. Rumors are plentiful, but facts are scarce. The commission representing the ex-queen of Hawaii, which is now in Washington for the purpose of persuading the administration not to recognize the republic of Hawaii, is on a fool's errand. The matter is out of the hands of the administration, and there is little doubt that congress will adopt the Boutelle resolution, directing the president to formally recognize the new government of Hawaii and extend to it the good wishes of congress, which was delayed in the house by a ruling of Speaker Crisp.

After all the sensational statements connected with the reopening of the sugar scandal investigation it is to end in a whitewashing fizzle. The photograph of the written order by Senator Camden for the purchase of stock was shown to that senator this week and he said he had no recollection of having written it. The man who could have furnished the direct proof is the fellow named Battershall, who claims to have taken the order from Camden and who furnished the original from which the photograph now in the possession of the committee was made, and who now is in Canada, whither he fled as soon as notified that his testimony was wanted, luxuriating at somebody's expense. The verdict as to Senator Camden can hardly be considered a vindication, unless the Scotch verdict of "not proven" can be so accepted. There is still some talk of trying to get this mess into court in order to find out the whole truth, but it will probably end in talk.

Mother Gray's Sweet Worm Powders.

Mother Gray, a nurse in the children's home in New York, has for years treated children successfully with a remedy, now prepared and placed in the drug stores, called Mother Gray's Sweet Worm Powders. They are sold by all druggists at 25 cents a package. They remove all worms, are harmless as milk, pleasant to take and never fail. Valuable for feverishness, constipation and headache, even if no worms are present. Ask Dr. J. W. Houghton or F. H. Tissot.

MEDINA.

The removal of the Smith monument from the family burying ground in Montville to Spring Grove cemetery was made this week, and it is now in position on a prominent knoll in the latter place.

Another Medina county wonder is to be exhibited to the world. On last Saturday Frank Miller, of Brooklyn, purchased from Fordham Brothers, of Brunswick, an ox owned and raised by them, and which is said to be the largest specimen of its kind now alive. It is five years old, stands six feet three inches high, measures eleven feet from its horns to the roots of its tail, and is said to weigh nearly 3000 pounds, although in very poor flesh. It was shipped to Cleveland Saturday.

The official duties of Hiram Goodwin as clerk of the courts for Medina county will end with Saturday of this week.—Gazette.

SEALERS LOST.

Important News From the Fleet in Bering Sea—Several Schooners Lost.

SAN FRANCISCO, Aug. 1.—Important news from the sealing fleet was brought by the steamer Gaelic. The Winchester, which was supposed to be lost, was the Nagasaki with 1,500 skins, and the Bowhead, also supposed lost in the gales last May, arrived with 1,200 skins. The schooner Rattler and Mary H. Thomas are still missing and it is feared they are lost. A powder explosion on board the schooner Lily H., which badly wounded three seal hunters, spoiled the vessel's cruise, as she took only 500 skins. This means a loss to her owners, C. D. Ladd & Co., of about \$4,000.

Additional catches of sealers bring the season's total to 86,000 skins. Last season's catch was 98,000. The Bering sea season ended yesterday, so that this will be swelled materially. The market for seal skins here is dull, as Liebes, the chief local dealer, offers only \$7.50 outright.

NOT A SUCCESS.

The Dynamite Cruiser Vesuvius to be Transformed Into a Torpedo Cruiser.

WASHINGTON, Aug. 1.—Secretary Herbert has been prompt to follow out one provision of the naval appropriation which became a law several days ago by issuing orders to the board of bureau chiefs, which includes Chief Constructor Hiebhorn, Engineer-in-Chief Melville, Commodore Matthews, Sampson and Chadwick, to enter at once into the consideration of the feasibility of transforming the dynamite gun cruiser Vesuvius into a torpedo cruiser of the first class.

The board will determine whether it will add to the efficiency of the vessel for naval purposes and report upon the advisability and cost of making the necessary changes. The Vesuvius was commissioned June 7, 1890, and although every effort has been made to utilize her pneumatic guns during the past four years, she has not been a success.

An Important Movement.

CHICAGO, Aug. 1.—Pursuant to a call issued by a committee appointed by Lyman J. Gage, president of the Civic Federation, a conference was held last evening at the rooms of the Commerce club at which a number of persons discussed the advisability of a congress to consider the possible methods of avoiding conflicts between employers and employees. The conference was attended by several Chicago capitalists, a number of labor leaders and a few editors from labor papers, but the representatives of the railroads who had been cordially invited were conspicuous by their absence.

Coal Handlers' Strike Off.

DULUTH, Minn., Aug. 1.—The coal handlers' strike at Superior is a thing of the past. The strikers held a meeting Monday night, at which they conceded that it was useless to fight the companies any longer. So they voted to go to work whenever the managers were willing. The companies took on quite a force of men yesterday.

Fatally Shot.

BUFFALO, N. Y., Aug. 1.—William H. Bright, of the Genesee oil works, who was shot Monday afternoon by Barney Murray, a former employee, died at the Emergency hospital at 5:30 o'clock yesterday morning.

"We have used Hood's Sarsaparilla in our family as a tonic and blood purifier and think it has no equal."—Miss Elsie M. Twining, Kipton, Ohio.

An Ohio Father's Baby.

My wife received a sample bottle of Dr. Hand's Colic Cure. For four months she hardly took her clothes off, baby cried so. The sample of Dr. Hand's Colic Cure worked like magic. I went right to the drug store and bought a 25c. bottle and a bottle of Dr. Hand's Pleasant Thyrid, and we were truly grateful that such relief has come to baby and us.—Respectfully, George M. Vaughn, Delaware, O. Sold by J. W. Houghton and F. B. Tissot.

STARTLING INCREASE!

Insanity Last Year.

The increase of insanity last year over the preceding year was startling! Think of it, persons suffering from nervous troubles, such as sick and nervous headache, nervousness, convulsions, neuralgia, apoplexy, dyspepsia, sleeplessness, paralysis, nervous prostration, epilepsy, etc. The outlook would certainly be discouraging for you were there no means of escape. Any of the above difficulties, and many more, are advance symptoms of insanity or some other equally deplorable condition ending in suicide or premature death.

Dr. Franklin Miles, the noted specialist, has devoted over 20 years to the investigation of nervous affections, and in the result of his labors lies the only hope of those afflicted with the troubles named. His Restorative Nervine is a positive means of relief. If you have any nervous affection attend to it at once. Do not wait till your intellect is shattered or the frenzy of suicide overcomes you. Delay is dangerous.

Rev. J. R. Miller, Pastor of the M. E. church, Big Run, Pa., writes: "Overwork caused me to break down completely. The efforts of several good doctors, and eight weeks of travel, did me little good. I could not read or study, and my condition was serious. I began using Dr. Miles' Restorative Nervine, four bottles of which completely cured me. Accept my gratitude." "I was taken sick last April, and had the attendance of three of our best physicians. The result was that at the end of four months I was a helpless invalid, could not eat, and did not get thirty minutes' sleep in 24 hours. Lost 35 pounds in weight. Four weeks ago I began using Dr. Miles' Restorative Nervine, Restorative Tonic and Nerve and Liver Pills. Have gained 25 pounds in weight, can eat and sleep, and feel as well as I ever did."—J. C. Stephens, Carlisle, Pa.

"I was afflicted with nervous prostration over two years, and during that time was unable to perform any work. Through the use of Dr. Miles' Restorative Nervine I am entirely restored to health, and able to conduct my business the same as before my sickness. I recommended the Nervine to a young man also suffering from nervous prostration, and he, too, received wonderful benefit from it. Dr. Miles' remedies are considered a panacea at our house."—W. S. Cuthaw, Gallien, Mich.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee. Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, or six bottles for \$5, express prepaid. It is positively free from all opiates and dangerous drugs. Dr. Miles' Nerve and Liver Pills, 25 cents per box, five boxes, \$1.00. Mailed anywhere. Free book at druggists, or by mail.

Sold by all druggists.
